Canadian Autism Intervention Research Network (CAIRN)

CAIRN has a mission to provide up-to-date evidenced based information about autism. There are links here for individuals with ASD and their families, Educators, Policymakers and Clinicians. You can find out what research is currently happening in Canada, how to participate in research studies, and read research articles that could have impact on treatment options. This information is for the parent, educator, clinician who has a good understanding of ASD and would like to know more about the condition, and keep up-to-date on current research – much of which is happening here in Canada, including right here in Nova Scotia.

Asperger's Syndrome: Yale Child Study Center

The page provides links to two documents: Guidelines for Assessment and Diagnosis and Guidelines for Treatment and Intervention. Both are authored by Ami Klin, PhD and Fred Volkmar, recognized authorities on Asperger Syndrome. The documents can be accessed as HTML files and readers can choose a particular section or the whole article. Clicking on the article title will also provide the reader with a PDF version of the document.
